

My mother died 6 million deaths

**My mother died 6 million deaths in that Hell
and she survived
and she restored to life entire generations**

**She taught us that death is a part of life
but now in hind-sight - I declare --
dear Mom --**

**it's not just a part of life---rather it's the seed of new life.
...in exponentially greater quantities and qualities
and I -- the son of the survivor --**

**I declare that I am the proud child
of a nation of lovers of living--
lovers of life...
you died, Mom--six million deaths**

**--to enable an entire nation to be fruitful and multiply
---to passionately embrace life
---until the end of time**
